Executive Chamber,

Olympia, Dec. 14 1885.

To the Legislative Assembly:

Gentlemen -

I herewith transmit a report from E. Meeker, Commissioner of the Territory, to the North, Central and South American exposition at New Orleans. The request of the commissioner seems to be reasonable and just.

I have not yet appointed a commissioner to the American Exposition of London, but will do so in the event that the Legislative Assembly shall make an appropriation sufficiently large to cover the expense of such commission. If appropriation be made, I would suggest a provision for report of all moneys received, and disbursed by the commissioner, with the accompanying vouchers.

The opportunity of forwarding the exhibits from the New Orleans Exposition at its close, to the London Exposition at its opening, is one that merits special consideration.

No money can be more beneficially appropriated, at present than that to be judiciously and faithfully used in making known to the world our resources, and thus bringing immigrants and capital to our

Territory.

Respectfully,
Watson C. Squire

Minority Report from the Committee on Counties.

Mr. Speaker-

Your Committee on Counties, to whom was referred

H.B. No. 7. H. B. No. 7- An act to provide for the location of the county seat of Spokane county by the vote of the electors of said county

Have had the same under consideration, and beg leave to submit the following minority report:

We are opposed to the passage of the bill in its present form, for the following reasons:

1st The county seat of Spokane county was located at Cheney by a majority vote within the last five years, at an election fairly held and conducted.

2nd We do not think it wise to open the question of location of county seat until the shifting and fluctuating of population incident to a new country, with its various excitements and booms, have yielded to more stable and settled conditions.

However, should it be the sense of this House that the question of the location of the county seat should again be submitted to the voters of said county, we respectfully suggest that the bill be so amended that the election take place at the time of the next general election, and that in case there be only two places voted for for county seat, a three fifths vote be required to change the location of the county seat to any other place in the county.

In support of these amendments we offer the following reasons, to wit:

1st A number of states, after experiencing a season of vexatious and annoying county seat contests, have adopted laws requiring a two third vote, to remove the county seat, and in some cases requiring even a number of years to intervene before the county seat can be removed after such counties seat has been established by the people.

Such a law appears to be fair, equitable and just to all concerned.

That the location of county seats, the investments in property incident thereto, the construction of roads, the erection of public buildings, should be subject to the temporary shiftings of population and majorities in a new country, seems to be unjust to many.

The uncertainty consequent upon such course would be inimical to desired stability, prosperity, harmony and peace in a community.

After a county seat is once located by a vote of the people, it should require at least three fifths of the legal votes instead of a bare majority to remove it.

By establishing this as a rule or precedent we will avert from succeeding legislatures many of these tedious and annoying contests, which are usually agitated by and in the interests of a few interested men, take up much valuable time of legislators, and expensive to the contending communities and lead to lasting bitter and injurious dissensions.

We think that if conditions arise which strongly demand a change of county seats, there will be little difficulty in securing a three fifths or two thirds vote, and certainly the minority in such case cannot claim that fraud and corruption were used, and will generally quietly acquiesce in the result.

For these reasons we recommend that bill do not pass, unless the above suggested amendments be embodied in it.

Respectfully submitted,

A. Ostrander }
S. J. Crutcher } Minority of committee on Counties.

Message from the Governor.

Washington Territory
Executive Office,
Olympia, Dec. 21st 1885.

To the Legislative Assembly, Gentlemen:

I herewith transmit the report of the "Statutory Visitors" of the Hospital for the Insane, which I have received this date.

Respectfully
Watson C. Squire,
Governor.

To the Governor and Legislative Assembly of Washington Territor

The Justices of the Supreme Court of the Territory Washington, Statutory Visitors of the Hospital for the Insane in Washington Territory, would respectfully rep to the Governor and Legislative Assembly, that during the last session of the Supreme Court, we visited & Hospital, and carefully inspected it throughout:

That it appeared to us to be well mana and with commendable regard to the comfort, hea

and restoration of the patients;

But that some of the buildings seemed to us to be badly decayed, and in urgent need of extensive repairs, and to be in many other respects ill adapted to the purposes of such an institution.

Especially, we noticed the size of some of the buildings in particular, and of all of them in the aggregate, as being quite inadequate to accommodate properly the number of patients within them.

In view of all this, we would respectfully suggest whether the proper time has not arrived to begin suitable structures of a permanent and more commodious character, befitting the good name of our Territory, and the humanity and liberality of our people.

Signed in behalf and by direction of all the Justices.

Roger S. Greene,
Chief Justice &c.

We do not deem it wise policy that school districts should be authorized or encouraged to incur such obligations, till they have first exercised to the fullest extent the privileges they now possess under the law to tax the districts for

of the law the committee recommend that the charter of Sp be amended as follows:

Territory of Washington
Auditors Office.
Olympia, Jan. 11th 1881.

To the Honorable, The House of Representatives, Territory of Washington.

Gentlemen.

In response to your Resolution of the 9th inst. relative to the printing and distribution of the Reports under Sec. 4. Act of 1883. I have respectfully to say, That there were printed, and at the verbal request of the Governor, delivered into the custody of the Auditor the following Reports, viz:-

Auditor's Reports		732 Copies.
Treasurer's Reports	(about)	500 "
Hospital for Insane Reports		500 "
Supt of Public Inst.	"	1500 "
Pilot Commissioner's	"	100 "
Penitentiary Warden's	"	100 "
Coal Com. (Sent direct to Legislature) Reports		100 "

Of the foregoing there have been delivered into the custody of the Sergeant-at-Arms of the House and Council for distribution to members of the Legislature the following:

Auditor's Reports		252 Copies.
Treasurer's	"	320 "

Hospital for Insane Reports 300 Copies
Supt. Pub. Instruction " 1000 "
Pilot Commissioners " 100 "
Penitentiary Wardens " 100 "
Coal Inspectors " 100 "

Of the number of the Auditors Reports sent to the Legislature 144 copies were for the House and 108 for the Council: 120 copies are still in the hands of the Auditor subject to the order of the former.

About 60 copies of this report have been sent off by the Auditor, in official exchange to other Territorial and State Auditors, to the Press of this Territory and Oregon and to Representatives of the Pacific Coast in Congress.

It would be very desirable if a few copies of those on hand could be left with the Auditor to meet some of the many urgent requests for this report from parties abroad seeking information relative to this Territory with the view to immigration.

Of the printed number deficient in the Auditors report I am informed by the printer, that so many signatures of those portions of the report referring to the Census, and other statistical matters, were supplied to various Officials and others before they reached the binder, that he was unable to make up the full number of bound copies.

Of the balance of the other reports not delivered, with the exception of a few copies delivered to Territorial Officials, members of the Press, etc. There remain in possession of the Auditor, and subject to your order the following:

Treasurers Report 124 Copies
Hospital for Insane Report (about) 100 "
Supt. Pub. Instruction " (about) 400 "

Fifty copies of the latter report were sent to the Supt of Pub. Instruction and fifty copies left in the Executive Office.

Very Respectfully
Your Obt servant
E. M. Reed

Mr. Speaker—

Your Committee on Ways, Means and Claims have had
under consideration the claim of the authorities of British
Columbia for the keeping and maintenance of one Pierre, who
was charged with the crime of murder and held as a
fugitive from this Territory in 1874; and had before them
Hon. H. L. Struve, who was Secretary of the Territory at that
time, and Mr. Irving, present Assistant Attorney General of
British Columbia, and have taken their statements touching
on the matter, which are as follows:

Mr. Struve being called, deposes and says, that at
the time of the contracting of the bill in question he was
acting as Secretary of the Territory, and has some personal
knowledge of these matters.

(Question) Do you know whether or not this man
Pierre was held in British Columbia by the request of
the officers of the Territory of Washington?

Ans. He was held at the request of the Governor
of the Territory acting in response to numerous appli-
cations made from Colville; citizens at or near Colville.
I think that the extradition papers are on file now at
the Executive Office, with some of the correspondence. I
am not certain.

Mr. Irving, Deputy Atty Genl. for British Columbia,
deposes and says, that he is at present acting as Deputy
Atty Genl. for British Columbia, and is presenting this
matter at the request of the department of British Columbia

(Question) Now state, Mr. Irving, the manner in which
fees of this character and expenses are taxed and allowed?

Ans. In the Kootnay, an outlying district. There is

a government agent. The accounts are all sent him and paid by him, and then sent to the Treasury Department at Victoria. And all ordinary accounts are passed upon by the Auditor. Extraordinary accounts, out of the usual routine business, are referred to the Deputy Head of the Department, to whom is intrusted the management of such affairs and upon being certified to by him as being correct are paid.

(Q.) State whether this account of $2700. is certified as correct in accordance with the laws of British Columbia?

Ans. The account of $2700. now produced is certified to in accordance with the regulations of the Treasury Department.

(Ques.) State as a matter of fact whether the fees, expenses have been paid in this bill?

Ans. As a matter of fact from inquiries made at the Treasury Department, and from the books at the Attorney General's office and in the Treasury Department I can swear to the best of my knowledge information and belief that the bill remains wholly unpaid by the Territory of Washington, and that the sums mentioned therein are some of the sums that have been paid by the Province of British Columbia through their agent at Kootenay.

(Ques.) Have these sums therein under your regulations become legal charges against your province?

Ans. Yes, they have become legal charges.

(Ques.) You may state whether the rates and prices fixed were the usual rates allowed and paid for such services in that part of the Province?

Ans. They were. I think so from an examination of the books of the Treasury Department and from consultation with a man then acting as Sheriff by the name of Mr. Both.

Your committee is of the opinion that the said fugitive Pierre was held and detained by the authorities of B.C. on the request of the authorities of this Territory, and that in justice the same should be paid.

If we expect in future to merit the trust of the authorities of B.C. in so far as to hold criminals escaping from the Territory for extradition, we should meet our obligations in that behalf, and while the bill seems large we are satisfied the charges have been paid by the authorities of B.C. and that they should be reimbursed.

We therefore recommend that the claim be paid and that a bill be passed for such purpose.

Special Order of the Day.

The hour of ten o'clock having arrived, the House took from the Table

H. B. No. 51. An Act to repeal an act to provide for the levy and collection of Taxes upon the property of Railroads in this Territory.

The majority of the Committee on Ways, Means and Claims presented the following report:

Mr. Lindsley was called to the Chair.

Mr. Speaker-

Your Committee on Ways, Means and Claims, to whom was referred H. B. No. 51. An Act to repeal an act to provide for the levy and collection of Taxes upon the property of railroads in this Territory.

Have had the same under consideration and recommend that the same do pass.

J. R. Lewis,
Chairman.

The minority of the Committee submitted the following report:

Territory of Washington.
House of Representatives. Olympia, Jan. 14, 1886.

Mr. Speaker-

The undersigned, a minority of your Committee on Ways

Means and Claims, to whom was referred

H. B. No. 57. Have had the same under consideration, and recommend That the Bill do not pass, for the following reasons:

1st. We believe That the present system is the most comprehensive, correct and convenient method of taxing railroads.

2nd. It brings into the Treasury of the Territory and the counties therein (in which railroads are located) more revenue than has been derived from any other mode of taxation heretofore in force in this Territory, which said revenue will be largely increased from year to year in proportion to the increased earnings of the Railroads in consequence of the increased percentage thereon provided for under the present law.

3rd. We consider the present Gross Earnings law to be constitutional and eminently just; and that it provides a uniform and equal method of taxation that could not be gained in any other way.

4th. It appears from the report of the Territorial Treasurer that the taxes due under the present law have been paid and that the law has given general satisfaction.

5th. In regard to the Northern Pacific Railway, it appears to be a settled fact that the right of way is exempt from Tax, which would carry with it the roadbed and all superstructures upon it, hence but a trifling amount of property of any character could be legally assessed and taxed.

6th. In relation to the Oregon Railway and Navigation Co. the only other great railway company doing business in this Territory - we find it possessed of no lands outside of roadway, and that upon its vessels and steamboat property, taxes are regularly paid under the general law.

7th. For the foregoing reasons, we can see no valid reason why the present comprehensive method of collecting revenue from railroads should be changed either for the old system, nor for a new and untried law, which instead of producing revenue may in attempting its enforcement deplete our treasuries, and be the fruitful cause of expensive and endless litigation.

Wm Fudge.
L. A. Wells.

Mr. Speaker—

Your Committee on Counties, to whom was referred
H. B. No. 188. Entitled "An Act to create and organize the County of St. Helens
and define the boundaries thereof,

Have had the same under consideration, and beg leave to
submit the following minority report, and recommend that
the bill do not pass.

The following are some of the reasons for dissenting from
the majority of your committee.

1st. As a general principle, it is not deemed wise or
for the good of communities to disturb established county lines
or to form new counties, unless good and substantial rea-
sons are shown for such action. To your minority, it does
not appear that such reasons were adduced.

2. It appears from the showing made before your
Com. that within the limits of the proposed new
there would be a population of about 850 and
number of voters would be about 130. There is

petition signed by about 700 voters claimed as legal
the proposed new county, which would leave about
within said limits, who did not sign the petition.

3. There is a remonstrance signed by about 1650 voters
and Cowlitz counties (out of which territory it is proposed to
the new county) of which number about 200 are claimed
reside within the limits of the proposed new county, pr
against the formation of a new county as aforesaid.

Report from Special Committee.

Mr. Speaker—

The Joint Conference Committee to whom was referred Council amendments to

H.B. No. 241. An Act to amend The Code of Washington Territory, in relation to foreign corporations.

The Bill was amended by adding a new section, as follows:

Sec. 3. All acts and parts of acts in conflict with the provisions of this act are hereby repealed.

The Bill was read the third time, and placed upon the final passage with the following result:

Ayes—Messrs. Swarnick, Cooke, Gilchrist, Dennison, Ferar, Goodell, Hill, Kinnear, Meade, McGall, Strander, Perkins, Terry, Mr. Speaker 14

Nays—Messrs. Brewer, Dewar, Fudge, Lewis Lindsley, Munday, Sefft, Wells—8.

Bill passed and title agreed to.

The Clerk was instructed to report the Bill to the Council at once.

Mr. Lewis offered the following resolution:

Whereas, at a large representative convention held at Chicago, in 1884, in which all the States and Territories were fully represented, it was resolved

"That the principle of public regulation of railway corporations as a wise and salutary po-

for the protection of all classes of the people, and in favor of legislation that shall prevent unjust discrimination and excessive charges for transportation, and that shall secure to the people, and the railways alike, just and equal protection of the laws";

And whereas at a large convention held at Walla Walla, in 884, in which all the counties in this Territory were represented, it was resolved:

"That we favor the enactment by Congress and the Territorial Legislature, of laws regulating freights and fares upon railroads so as to prevent extortionate charges and unjust discrimination";

And whereas, at a large representative convention held at Seattle, in 1884, at which all the counties in the Territory were represented, it was resolved

"That we fully endorse the National Republican platform adopted at Chicago, which contains the declaration hereinabove recited, touching the regulation of railroads";

And whereas, the said convention at Seattle further resolved

"That we declare that discrimination by railroad companies against the people, in charges for freights and passengers is a gross injustice";

And whereas, we believe that the people of our Territory demand such legislation as will afford them relief against extortion and discrimination on part of railroad companies;

And whereas, there are in addition to the Northern Pacific railroad, other railroads in the Territory which alike demand our attention;

And whereas, at least twenty seven States and one Territory have adopted the system of regulating railroad companies by commissioners appointed under the laws of such States and Territory, and which systems have tended to the great benefit and advantage of the people;

And whereas, we believe that the Legislative Assembly of this Territory has ample power to enact such laws for the protection of our people, and that the exercise of such power is imperatively demanded by the people of the Territory, in order that relief be afforded them from extortion and unjust discrimination on part of railroad companies doing business within our Territory.

And whereas, acts have been introduced in and passed by this House in accord with the wishes of the people of the Territory, to create a board of commissioners for the purpose of regu-

lating said railroad companies, and thereby a
the people of the Territory relief against Excess
charges for transportation, which said acts
not secure laws, thereby leaving our people without
protection to which they are justly entitled.

Therefore, Be it resolved by the House of Repre-
tatives of the Territory of Washington.

That our delegate in Congress be and is
quested to use all means within his power to ca
to be Enacted by the Congress of the United States
laws as will afford to the people of our Terri
ample relief against unjust discrimination, an
excessive charges for transportation on part of rail
road companies doing business within the Territory,
and thereby secure to us equal protection of the
law, which is now secured to the people of some
27 States, and one Territory, who are now enjoying
the blessings secured to them by such wise and
ample legislation, as is to them secured by the
aid of such commission.

Resolved further, That the Chief Clerk of this
House forward a copy hereof to our delegate in
Congress, and to the Speaker of the House of Repre-
sentatives at Washington, D. C.

The ayes and nays being called for, the re-
solution was adopted by the following vote:

Ayes - Messrs. Arasmith, Brewer, Byrd, Cooke,
Crutcher, Dennison, Dewar, Fenn, Fudge, Gordell, Hill,
Kinnear, Knowles, Lewis, Lindsley, Mandy, McCall,

H.B. #232 An act to exempt Mortgages, Deeds of Trust, Contracts ~~and~~ other obligations by which a lien is or may be created on any real estate or any interest therein ++ from assessment and taxation.

Mr. Speaker,

A majority of the Committee on Ways and means have submitted a report recommending the passage of this bill,

The subscribers hereto cannot accept to such recommendation and in our judgment the bill is not such as one as should pass this House, and we recommend that such bill do not pass - and among the many reasons for our opinion we submit the following:

1st

It is an elementary principle that the [illegible] the Territory should support the government of the and that all property within the Territory should bear equal part of such burden - So every citizen should be compelled to bear a fair and just proportion in providing for the general expense, no favor should be shown to any, no extra burden should be placed upon any - as declared in the civil rights bill "It is essential to just government that we recognize the equality of all men befor the law and hold that it is the duty of the government with the people to mete out equal and exact justice to all" It is upon this principle is based the wise provisions of our organic act. "That all taxes shall be equal and uniform and no distinctions shall be made in the assessments between different kinds of property but the assessment shall be according to the value of the property" The provisions of Section 1 of the bill under our consideration exempts from taxation, "all mortgages deeds of trust, contracts or other obligations by which a lien is created upon real estate or may be created" These provisions necessarily require that all promissory notes, accounts, contracts and other obligations which are not secured by a mortgage or some lien upon real estate shall be taxed - It exempts from taxation in the hands of the citizen all notes and other credits which are secured by mortgages upon lands and leaves the notes secured by chattel mortgages, by collateral or personal security to be taxed - it is class legislation for the benefit of the man or corporation within our Territory who loans only upon real estate security - while the ordinary citizen must pay taxes upon his horse, his ox and other personal goods and upon notes not secured upon real estate - it wholly exempts the man who deals in money by loaning on real estate security - it favors capital and oppresses labor, it makes the man of moderate means contribute to the support of the government, and exempts the man who deals in money, it makes the rich richer, and the poor poorer such legislation is the worst kind of class legislation It is said that the enactment of this law will invite foreign capital to our Territory - all capital should equally with labor, help contribute to the support of the government which affords like protection to both - labor never asks exemption, never seeks exemption and never secures exemption. The man who borrows is not less to ask this exemption, it is the man - and but one man within the territory who is urging the members of this House to support this

the man who lends and who seeks to avoid his equal share to support our government. Further all persons who reside without our Territory and lend money to persons within the territory are exempt from taxation upon such loans within the Territory - for it is a well settled rule of law that the moneys and credits of a man follows his person, wherever he resides, his moneys and credits are - they dwell with him in his domicile - Same foreign capital will not be benefitted by the exemption herein provided. If foreign capital invested here in the shape of loans secures no benefit necessarily the only person who is benefitted is the resident capitalist tax payer. citizen who is unwilling to pay his due proportion of the expense of the government, which protects him is unworthy to be a citizen of the Territory

But there is another view of this matter. Under our present revenue laws all Rail Road property within the Territory is exempt from taxation and in lieu of such taxation the Roads paid into the Treasury for 1884 in round numbers $50000. of this the territory receives one third = $16666. the counties receive $33333.

The Auditor in his report states the value of Rail Road property within the Territory at $2.000,000.00 The average taxes within the territory not including city or special school is about 17 mills, and if we include city and school it will reach at least 2 per cent at a low estimate The tax on Rail Road property at that rate as estimated by the Auditor would be per annum $50000. The portion due the territory would be $62500. We lose each year therefore on the auditors estimates of value by reason of the exemption of Rail Roads under the Gross Earnings law, taxes to the amount of over $500,000. An examination discloses that in Walla Walla Co. alone under the provisions of this bill there will be stricken from the assessment roll at least $300.000. and no doubt a like sum in Whitman - and for the whole territory the property exempted will amount to at least $5000 000.00 a tax of 2 per ct upon this sum would be $100000.00 per annum. It will be seen therefore that with Rail Roads now exempted - and the money lender who will be exempted under the provisions of this act the whole burden of taxation will fall upon the men who have but little means

In addition to all these matters this bill in substance was defeated in the House on the 24th Jan. and came back on the 25th in open violation of Rule 9 & 24 joint rules

Respectfully
